

CATALYST COMMUNITY

NewThing Catalyst Community training inspires churches to fulfil God-sized dreams for Kingdom impact. Worldwide we are forming communities of like-minded leaders to work together to advance God's Kingdom. This proven learning community experience will kick start church planting and multiplication for you and your team.

Through NewThing globally, thousands of churches have been planted through this process created by Joe Wilson, President of New Churches Now, exclusively partnering with NewThing. Throughout the journey we will also receive input from Anthony Delaney and a number of specially selected church multiplication experts from around the world of LAUNCH and NewThing.
